Contents

Install MiKTeX.....	3
Install R.....	3
Install R studio	3
Install R markdown.....	3
All above steps are explained in this document (Detailed Explanation)	3
Install following R packages.....	3
Tidyverse.....	3
ggplot2	3
dplyr	3
Bioconductor.....	3
data.table	4
rttracklayer	4
Linux for Windows (Cygwin).....	4
Install cygwin.....	4
install bedtools	4

Please follow the guidelines below and install required tools packages, and software before you come to the workshop (If you have your personal laptops please bring them. Otherwise contact ITU-1 to install required software before the work shop)

Quick Guide (for detailed explanation see below)

Install MiKTeX

<https://miktex.org/download>

Install R

<https://cran.r-project.org/mirrors.html>

Install R studio

<https://www.rstudio.com/products/rstudio/download/#download>

Install R markdown

Refer

https://rmarkdown.rstudio.com/authoring_quick_tour.html

or

<https://www.youtube.com/watch?v=QaKCirYknS8>

All above steps are explained in this document (Detailed Explanation)

<https://medium.com/@sorenind/create-pdf-reports-using-r-r-markdown-latex-and-knitr-on-windows-10-952b0c48bfa9>

Install following R packages

Tidyverse

<https://cran.r-project.org/web/packages/tidyr/README.html>

ggplot2

<https://ggplot2.tidyverse.org/>

dplyr

<https://www.r-project.org/nosvn/pandoc/dplyr.html>

Bioconductor

<https://www.bioconductor.org/install/>

data.table

<https://github.com/Rdatatable/data.table/wiki/Installation>

rttracklayer

<https://bioconductor.org/packages/release/bioc/html/rtracklayer.html>

Important

Before you come to the work shop please be familiar with basics of R. Then we can skip the basics and do some more... But I will try to give a brief introduction.

You can follow this document as a reference.

https://github.com/jmonlong/HGSS_Rworkshops/blob/master/Intro-Rbasics-2016/HGSS-Workshop-Rintro-2016.pdf

Linux for Windows (Cygwin)

Follow below steps only if you use a windows computer.

Install cygwin

<http://www.cygwin.com/install.html>

install these tools using the options presented at the installation

gawk

less

grep

sed

emacs

nano

install bedtools

https://www.reddit.com/r/bioinformatics/comments/46sz57/installing_bedtools_on_windows_using_cygwin/
